SOFTWARE ENGINEER

CAREER OBJECTIVE

Motivated Computer Science engineering student skilled in frontend development, UI engineering, and product-focused problem solving. Experienced in building scalable applications, enhancing user experience, and collaborating across teams. Dedicated to writing clean, efficient code and delivering high-quality software solutions.

EDUCATION

Kongu Engineering College Erode

BE Computer Science and Engineering 2023-2027
CGPA: 8.10

SVKN Mat Hr Sec School

HSC 2022-2023
86.83%

TECHNICAL SKILLS

• Programming Languages

Python, Java, C

• Frontend Development

ReactJS, JavaScript, HTML5, CSS3

• Tools & Platforms

Git, GitHub, VS Code, Vercel

• Database Management

MySQL, MongoDB

• Concepts

Oops, Os

SOFT SKILLS

- Problem-solving
- Communication
- Team Collaboration

AREA OF INTERESTS

Web Development
UI/UX Designing

PROJECTS

Automated Coconut Sorting System

SEP 2025

Role: ML Engineer

- Developed an automated coconut sorting system using Python and OpenCV to classify coconuts by size, shape, and weight.
- Trained machine learning and deep learning models for weight prediction and grading using extracted image features.
- Built a Streamlit web app for real-time image upload, sorting, and instant visual feedback

Learning Management System (LMS)

AUG 2025-SEP 2025

Role: Frontend Developer

- Developed a full-stack LMS with authentication, role-based dashboards, course enrollment, attendance tracking, and assignment workflows.
- Implemented features like AI-based course recommendations and integrated Zoom meeting scheduling for seamless online learning.
- Built a responsive React frontend and connected it with backend REST APIs, ensuring smooth performance and secure data flow.

Mood Journal

JULY 2025

Role: Frontend Developer

- Built an interactive mood tracking application using React with emoji-based mood logging, daily notes, and visual history analytics.
- Implemented features like dark/light mode, animated UI elements, and localStorage-based data persistence for a smooth and personalized user experience.
- Designed responsive UI components and deployed the application on Vercel for fast, reliable access.

ACHIEVEMENTS

- **First Prize** – Automated Coconut Sorting System (AI Department Expo, KEC)
- **Third Prize** – Learning Management System (IDEATHON 2K25, KEC)
- **Second Prize** – Green Lifestyle & Finance Tracker (MCA Hackathon 2K25, KEC)

CERTIFICATIONS

Associate Developer (MongoDB)
